Definitions.** "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an

Component	License Information
	example is provided in the Appendix below).
	"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.
	"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."
	"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.
	2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
	3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

	4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
	a. You must give any other recipients of the Work or Derivative Works a copy of this License; and
	b. You must cause any modified files to carry prominent notices stating that You changed the files; and
	c. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
	d. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.
	You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.
	5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
	6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
	7. Disclaimer of Warranty. Unless required by applicable law or

Component	License Information
	agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License. **8. Limitation of Liability.** In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages. **9. Accepting Warranty or Additional Liability.** While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability. IF YOU DO NOT AGREE TO THESE TERMS AND CONDITIONS, DO NOT OPEN THIS SOFTWARE PACKAGE. YOU MAY ONLY UNLOCK AND/OR USE THE SOFTWARE FOR WHICH YOU HAVE A PAID-UP LICENSE OR FOR WHICH YOU HAVE LEGALLY RECEIVED AN UNLOCK KEY. 1. DEFINITION OF TERMS "Documentation": any explanatory written or on-line material including, but not limited to, user guides, reference manuals and HTML files. "Licensee": shall refer to the individual licensee, whether as an individual programmer, company, or other organization. "Software": All material in this distribution including, but not limited to, one or more of the following: source code, object code, byte code, dynamic-link libraries, shared libraries, static libraries, header files, executables, scripts, sample programs, utility programs, and Documentation. "Licensed Software": The Software for which Licensee has paid the applicable license fee and received an authorized unlock key. "Software Application Programming Interface ("API")": the set of access methods, whether provided by Chilkat Software, third parties, or developed by Licensee, through which the programmatic services provided by the Licensed Software are made available.

Component	License Information
	"Application" or "Your Application" means a software application that You develop which incorporates all or parts of the Licensed Software. The Licensed Software contains certain runtime libraries and files intended for duplication and distribution by Licensee within End User Software Products to the user(s) of the End User Software Product(s) (the "Redistributable Components"). The Redistributable Components are those files specifically designated as being distributable as part of the Licensed Software. SPECIAL LIMITED TERM EVALUATION LICENSE If Licensee has downloaded a copy of the Software for evaluation purposes, Chilkat Software, Inc. ("Chilkat") grants to Licensee, subject to the terms of this License Agreement (excluding Section 3, under which Licensee has no rights) a non-exclusive, non- transferable, non-concurrent limited internal use license for evaluation purposes only. This license is for a period of thirty (30) days, commencing from Licensee's initial downloading date, to evaluate the Software. If the Software is acceptable, Licensee agrees to promptly notify his Chilkat Sales Representative. Otherwise, Licensee shall immediately cease any further use of the Software. 2. GENERAL The Software is owned by Chilkat Software, Inc. ("Chilkat") and is protected by U.S. copyright laws and other laws and by international treaties. It is intended for use by a software programmer who has experience using development tools and class libraries. 3. DEVELOPER LICENSE GRANTS The specific license level selected by you at the time of purchase or most recent upgrade determines whether the license applies to (a) a single named developer, (b) a small group of up to 4 developers, or (c) a team of up to 8 developers. Subject to the terms and conditions of this Agreement, Chilkat grants to Licensee the perpetual, nonexclusive, non-transferable, royalty-free license to integrate the Licensed Software into Your Applications and to distribute such Licensed Software in connection with said Applications, provided that (a) said Applications do not in any way compete with the Licensed Software, or provide substantially the same functionality as the Licensed Software, or expose the functionality of the Licensed Software through a programmable interface; (b) each of Your Applications developed using Licensed Software is designed for end users, rather than for developers who would be able to build other software that would compete with the Licensed Software, and (c) You do not permit further distribution of the Licensed Software by Your end users.

Component	License Information
	For each License Key provided to You by Chilkat, depending on the specific license level selected by you at the time of purchase or most recent upgrade, You are granted a nonexclusive License to make the Licensed Software and/or the License Key(s) available to the specified number of Your named developers. Should the number of named developers with access to the Licensed Software and/or the License Key(s) ever exceed the number indicated at the time of original purchase or most recent upgrade, You agree to inform Chilkat of such change and to upgrade Your License accordingly by paying an upgrade fee to Chilkat in a timely manner.

A "1 Developer License" which may also be referred to as "Single Developer License" means that only one named individual developer employed by You may be given access to the Licensed Software and/or the License Key(s) for the sole purpose of developing and maintaining Your Applications. For as long as this specific individual developer is employed or engaged by You in any capacity whatsoever whereby, he or she may access the Licensed Software and/or the License Key(s), no other developer may be given access to the Licensed Software and/or the License Key(s). Should said individual developer leave Your employ and cease any professional association with You, or otherwise relinquish all access the Licensed Software and/or the License Key(s), a new named individual developer may then take his or her place and be given access to the Licensed Software and/or the License Key(s).

A "Team License" or "Small Group License" is equivalent to a specified number of single developer licenses. For example, a "4 Developers Small Group License" is equivalent to 4 single developer licenses. The number of developers in a team identifies the maximum number of the named individual developers employed by You who may be given access to the Licensed Software and/or the License Key(s) for the sole purpose of developing and maintaining Your Applications. For as long as the allowed maximum number of named individual developers are employed or engaged by You in any capacity whatsoever whereby these named individual developers may access the Licensed Software and/or the License Key(s), no other developer may be given access to the Licensed Software and/or the License Key(s). Should any single named individual developer leave Your employ and cease any professional association with You, or otherwise relinquish all access the Licensed Software and/or the License Key(s), a new named individual developer may then take his or her place and be given access to the Licensed Software and/or the License Key(s), whereby the total number of said named developers would not exceed the licensed team size.

Licensee has no rights to use the Licensed Software beyond those specifically granted in this section.

	Notwithstanding any provisions in this Agreement to the contrary, Licensee may not distribute any portion of the Software other than the Redistributable Components.
	In addition, Licensee may not decompile, disassemble, or reverse engineer any object code form of any portion of the Software.
	5. TITLE
	Licensee acknowledges and agrees that all right, title and interest in and to the Software, including all intellectual property rights therein, are the property of Chilkat, subject only to the licenses granted to Licensee under this Agreement. This Agreement is not a sale and does not transfer to the Licensee any title or ownership in or to the Software or any patent, copyright, trade secret, trade name, trademark or other proprietary or intellectual property rights related thereto.

	7. LIMITED WARRANTIES
	Chilkat warrants to Licensee that the Licensed Software will substantially perform the functions described in the Documentation for a period of thirty (30) days after the date of delivery of the Licensed Software to Licensee. Chilkat's sole and exclusive obligation, and Licensee's sole and exclusive remedy, under this warranty is limited to Chilkat's using reasonable efforts to correct material, documented, reproducible defects in the Licensed Software that Licensee describes and documents to Chilkat during the thirty (30) day warranty period. If Chilkat fails to correct a material, documented, reproducible defect during this period, Chilkat may, at Chilkat's discretion, replace the defective Licensed Software or refund to Licensee the amount that Licensee paid Chilkat for the defective Licensed Software and cancel this Agreement and the licenses granted herein. In such event, Licensee shall immediately cease any further use of the Software.
	EXCEPT AS EXPRESSLY SET FORTH ABOVE, CHILKAT EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY, FITNESS FOR A PARTICULAR

	8. LIMITATION OF LIABILITY
	IN NO EVENT SHALL CHILKAT BE LIABLE FOR ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS, REVENUES, DATA OR OTHER ECONOMIC ADVANTAGE) WHETHER BASED ON CONTRACT, TORT, OR ANY OTHER LEGAL THEORY, EVEN IF CHILKAT WAS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NOTWITHSTANDING THE FOREGOING, THE TOTAL AMOUNT OF CHILKAT'S LIABILITY TO LICENSEE SHALL BE LIMITED TO THE AMOUNT USER PAID FOR THE USE OF THE SOFTWARE, IF ANY.
	9. TERMINATION
	Chilkat reserves the right, at its sole discretion, to terminate this Agreement upon written notice if Licensee has breached the terms and conditions hereof. Licensee may terminate this Agreement at any time by ceasing to use the Licensed Software. Sections 4, 5, 6, 7, 8, 9 and 10 survive any termination of this Agreement and apply fully to any termination. Unless terminated as provided herein by either party, this Agreement shall remain in effect. Termination will not affect end user licenses of the End User Software Product which contain the Redistributable Components which were distributed by Licensee prior to termination.

However, if you violate these terms after such reinstatement, any additional violation of these terms will cause your licenses to terminate automatically and permanently. **No Liability** *As far as the law allows, the software comes as is, without any warranty or condition, and the licensor will not be liable to you for any damages arising out of these terms or the use or nature of the software, under any kind of legal claim.* **Definitions** The **licensor** is the entity offering these terms, and the **software** is the software the licensor makes available under these terms, including any portion of it. **you** refers to the individual or entity agreeing to these terms. **your company** is any legal entity, sole proprietorship, or other kind of organization that you work for, plus all organizations that have control over, are under the control of, or are under common control with that organization. **control** means ownership of substantially all the assets of an entity, or the power to direct its management and policies by vote, contract, or otherwise. 	    (iii) Oracle Approved Product Use, and/or
	
	    (iv) Oracle Cloud Infrastructure Use.
	
	You may allow Your Contractor(s) to use the Programs, provided they are acting on Your behalf to exercise license rights granted in this Agreement and further provided that You are responsible for their compliance with this Agreement in such use. You will have a written agreement with Your Contractor(s) that strictly limits their right to use the Programs and that otherwise protects Oracle's intellectual property rights to the same extent as this Agreement. 	All rights not expressly granted in this Agreement are reserved by Oracle. If You want to use the Programs for any purpose other than as expressly permitted under this Agreement, You must obtain from Oracle or an Oracle reseller a valid Program license under a separate agreement permitting such use.

Your rights to use Separately Licensed Third Party Technology under Separate Terms are not restricted in any way by this Agreement. However, for clarity, notwithstanding the existence of a notice, third party technology that is not Separately Licensed Third Party Technology shall be deemed part of the Programs and is licensed to You under the terms of this Agreement.

We each will be responsible for paying our own employees, including employment related taxes and insurance. Nothing in this Agreement shall be construed to limit either party's right to independently develop or distribute software that is functionally similar to the other party's products, so long as proprietary information of the other party is not included in such software. **Entire Agreement; Governing Law** You agree that this Agreement is the complete agreement for the Programs and this Agreement supersedes all prior or contemporaneous agreements or representations, including any clickwrap, shrinkwrap or similar licenses, or license agreements for prior versions of the Programs. This Agreement may not be modified and the rights and restrictions may not be altered or waived except in a writing signed by authorized representatives of You and of Oracle. If any term of this Agreement is found to be invalid or unenforceable, the remaining provisions will remain effective. This Agreement is governed by the substantive and procedural laws of the State of California, USA, and You and Oracle agree to submit to the exclusive jurisdiction of, and venue in, the courts of San Francisco or Santa Clara counties in California in any dispute arising out of or relating to this Agreement. **Notices** Should You have any questions concerning this Agreement, or if You desire to contact Oracle for any reason, please write: Oracle America, Inc. 500 Oracle Parkway Redwood City, CA 94065 **Oracle Employees:** Under no circumstances are Oracle employees authorized to download software for the purpose of distributing it to customers. 	GNU LESSER GENERAL PUBLIC LICENSE Version 2.1, February 1999
	Copyright (C) 1991, 1999 Free Software Foundation, Inc. 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.
	[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]
	Preamble
	The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.
	This license, the Lesser General Public License, applies to some

Component	License Information
	specially designated software packages--typically libraries--of the
	Free Software Foundation and other authors who decide to use it. You
	can use it too, but we suggest you first think carefully about whether
	this license or the ordinary General Public License is the better
	strategy to use in any particular case, based on the explanations below.
	When we speak of free software, we are referring to freedom of use,
	not price. Our General Public Licenses are designed to make sure that
	you have the freedom to distribute copies of free software (and charge
	for this service if you wish); that you receive source code or can get
	it if you want it; that you can change the software and use pieces of
	it in new free programs; and that you are informed that you can do
	these things.
	To protect your rights, we need to make restrictions that forbid
	distributors to deny you these rights or to ask you to surrender these
	rights. These restrictions translate to certain responsibilities for
	you if you distribute copies of the library or if you modify it.
	For example, if you distribute copies of the library, whether gratis
	or for a fee, you must give the recipients all the rights that we gave
	you. You must make sure that they, too, receive or can get the source
	code. If you link other code with the library, you must provide
	complete object files to the recipients, so that they can relink them
	with the library after making changes to the library and recompiling
	it. And you must show them these terms so they know their rights.
	We protect your rights with a two-step method: (1) we copyright the
	library, and (2) we offer you this license, which gives you legal
	permission to copy, distribute and/or modify the library.
	To protect each distributor, we want to make it very clear that
	there is no warranty for the free library. Also, if the library is
	modified by someone else and passed on, the recipients should

Component	License Information
	know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to |

Component	License Information
	encourage the widest possible use of a certain library, so that it becomes
	a de-facto standard. To achieve this, non-free programs must be
	allowed to use the library. A more frequent case is that a free
	library does the same job as widely used non-free libraries. In this
	case, there is little to gain by limiting the free library to free
	software only, so we use the Lesser General Public License.
	In other cases, permission to use a particular library in non-free
	programs enables a greater number of people to use a large body of
	free software. For example, permission to use the GNU C Library in
	non-free programs enables many more people to use the whole GNU
	operating system, as well as its variant, the GNU/Linux operating
	system.
	Although the Lesser General Public License is Less protective of the
	users' freedom, it does ensure that the user of a program that is
	linked with the Library has the freedom and the wherewithal to run
	that program using a modified version of the Library.
	The precise terms and conditions for copying, distribution and
	modification follow. Pay close attention to the difference between a
	"work based on the library" and a "work that uses the library". The
	former contains code derived from the library, whereas the latter must
	be combined with the library in order to run.
	GNU LESSER GENERAL PUBLIC LICENSE
	TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
	0. This License Agreement applies to any software library or other
	program which contains a notice placed by the copyright holder or
	other authorized party saying it may be distributed under the terms of
	this Lesser General Public License (also called "this License").
	Each licensee is addressed as "you".

Component	License Information
	A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.
	The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)
	"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.
	Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.
	1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

Component	License Information
	You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.
	2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:
	a) The modified work must itself be a software library.
	b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
	c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
	d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.
	(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)
	These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in

Component	License Information
	themselves, then this License, and its terms, do not apply to those
	sections when you distribute them as separate works. But when you
	distribute the same sections as part of a whole which is a work based
	on the Library, the distribution of the whole must be on the terms of
	this License, whose permissions for other licensees extend to the
	entire whole, and thus to each and every part regardless of who wrote
	it.
	Thus, it is not the intent of this section to claim rights or contest
	your rights to work written entirely by you; rather, the intent is to
	exercise the right to control the distribution of derivative or
	collective works based on the Library.
	In addition, mere aggregation of another work not based on the Library
	with the Library (or with a work based on the Library) on a volume of
	a storage or distribution medium does not bring the other work under
	the scope of this License.
	3. You may opt to apply the terms of the ordinary GNU General Public
	License instead of this License to a given copy of the Library. To do
	this, you must alter all the notices that refer to this License, so
	that they refer to the ordinary GNU General Public License, version 2,
	instead of to this License. (If a newer version than version 2 of the
	ordinary GNU General Public License has appeared, then you can specify
	that version instead if you wish.) Do not make any other change in
	these notices.
	Once this change is made in a given copy, it is irreversible for
	that copy, so the ordinary GNU General Public License applies to all
	subsequent copies and derivative works made from that copy.
	This option is useful when you wish to copy part of the code of
	the Library into a program that is not a library.

Component	License Information
	4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.
	If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.
	5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.
	However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.
	When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.
	If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline

Component	License Information

	functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)
	
	  Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.
	
	  6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.
	
	  You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:
	
	    a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

Component	License Information
	b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with. c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution. d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place. e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy. For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

Component	License Information
	7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things: a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above. b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work. 8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance. 9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it. 10. Each time you redistribute the Library (or any work based on the

Component	License Information
	Library), the recipient automatically receives a license from the
	original licensor to copy, distribute, link with or modify the Library
	subject to these terms and conditions. You may not impose any further
	restrictions on the recipients' exercise of the rights granted herein.
	You are not responsible for enforcing compliance by third parties with
	this License.
	11. If, as a consequence of a court judgment or allegation of patent
	infringement or for any other reason (not limited to patent issues),
	conditions are imposed on you (whether by court order, agreement or
	otherwise) that contradict the conditions of this License, they do not
	excuse you from the conditions of this License. If you cannot
	distribute so as to satisfy simultaneously your obligations under this
	License and any other pertinent obligations, then as a consequence you
	may not distribute the Library at all. For example, if a patent
	license would not permit royalty-free redistribution of the Library by
	all those who receive copies directly or indirectly through you, then
	the only way you could satisfy both it and this License would be to
	refrain entirely from distribution of the Library.
	If any portion of this section is held invalid or unenforceable under any
	particular circumstance, the balance of the section is intended to apply,
	and the section as a whole is intended to apply in other circumstances.
	It is not the purpose of this section to induce you to infringe any
	patents or other property right claims or to contest validity of any
	such claims; this section has the sole purpose of protecting the
	integrity of the free software distribution system which is
	implemented by public license practices. Many people have made
	generous contributions to the wide range of software distributed
	through that system in reliance on consistent application of that
	system; it is up to the author/donor to decide if he or she is willing

Component	License Information
	to distribute software through any other system and a licensee cannot
	impose that choice.
	This section is intended to make thoroughly clear what is believed to
	be a consequence of the rest of this License.
	12. If the distribution and/or use of the Library is restricted in
	certain countries either by patents or by copyrighted interfaces, the
	original copyright holder who places the Library under this License may add
	an explicit geographical distribution limitation excluding those countries,
	so that distribution is permitted only in or among countries not thus
	excluded. In such case, this License incorporates the limitation as if
	written in the body of this License.
	13. The Free Software Foundation may publish revised and/or new
	versions of the Lesser General Public License from time to time.
	Such new versions will be similar in spirit to the present version,
	but may differ in detail to address new problems or concerns.
	Each version is given a distinguishing version number. If the Library
	specifies a version number of this License which applies to it and
	"any later version", you have the option of following the terms and
	conditions either of that version or of any later version published by
	the Free Software Foundation. If the Library does not specify a
	license version number, you may choose any version ever published by
	the Free Software Foundation.
	14. If you wish to incorporate parts of the Library into other free
	programs whose distribution conditions are incompatible with these,
	write to the author to ask for permission. For software which is
	copyrighted by the Free Software Foundation, write to the Free
	Software Foundation; we sometimes make exceptions for this. Our
	decision will be guided by the two goals of preserving the free status
	of all derivatives of our free software and of promoting the sharing

Component	License Information
	and reuse of software generally.
	NO WARRANTY
	15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO
	WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
	EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR
	OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY
	KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE
	IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR
	PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE
	LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME
	THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
	16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN
	WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY
	AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU
	FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR
	CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE
	LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING
	RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A
	FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF
	SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH
	DAMAGES.

	How to Apply These Terms to Your New Libraries
	
	  If you develop a new library, and you want it to be of the greatest
	possible use to the public, we recommend making it free software that
	everyone can redistribute and change. You can do so by permitting
	redistribution under these terms (or, alternatively, under the terms of the
	ordinary General Public License).
	
	  To apply these terms, attach the following notices to the library. It is
	safest to attach them to the start of each source file to most effectively
	convey the exclusion of warranty; and each file should have at least the
	"copyright" line and a pointer to where the full notice is found.
	
	    <one line to give the library's name and a brief idea of what it does.>
	    Copyright (C) <year> <name of author>
	
	    This library is free software; you can redistribute it and/or
	    modify it under the terms of the GNU Lesser General Public
	    License as published by the Free Software Foundation; either
	    version 2 of the License, or (at your option) any later version.
	
	    This library is distributed in the hope that it will be useful,
	    but WITHOUT ANY WARRANTY; without even the implied warranty of
	    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
	    Lesser General Public License for more details.
	
	    You should have received a copy of the GNU Lesser General Public
	    License along with this library; if not, write to the Free Software
	    Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

	Also add information on how to contact you by electronic and paper mail.
	You should also get your employer (if you work as a programmer) or your
	school, if any, to sign a "copyright disclaimer" for the library, if
	necessary. Here is a sample; alter the names:

	Preamble
	The licenses for most software are designed to take away your
	freedom to share and change it. By contrast, the GNU General Public
	License is intended to guarantee your freedom to share and change free
	software--to make sure the software is free for all its users. This

Component	License Information
	General Public License applies to most of the Free Software
	Foundation's software and to any other program whose authors commit to
	using it. (Some other Free Software Foundation software is covered by
	the GNU Library General Public License instead.) You can apply it to
	your programs, too.
	When we speak of free software, we are referring to freedom, not
	price. Our General Public Licenses are designed to make sure that you
	have the freedom to distribute copies of free software (and charge for
	this service if you wish), that you receive source code or can get it
	if you want it, that you can change the software or use pieces of it
	in new free programs; and that you know you can do these things.
	To protect your rights, we need to make restrictions that forbid
	anyone to deny you these rights or to ask you to surrender the rights.
	These restrictions translate to certain responsibilities for you if you
	distribute copies of the software, or if you modify it.
	For example, if you distribute copies of such a program, whether
	gratis or for a fee, you must give the recipients all the rights that
	you have. You must make sure that they, too, receive or can get the
	source code. And you must show them these terms so they know their
	rights.
	We protect your rights with two steps: (1) copyright the software, and
	(2) offer you this license which gives you legal permission to copy,
	distribute and/or modify the software.
	Also, for each author's protection and ours, we want to make certain
	that everyone understands that there is no warranty for this free
	software. If the software is modified by someone else and passed on, we
	want its recipients to know that what they have is not the original, so

	that any problems introduced by others will not reflect on the original
	authors' reputations.
	Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.
	The precise terms and conditions for copying, distribution and modification follow.
	GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
	0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".
	Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

Component	License Information
	1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change. b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License. c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

Component	License Information
	These requirements apply to the modified work as a whole. If
	identifiable sections of that work are not derived from the Program,
	and can be reasonably considered independent and separate works in
	themselves, then this License, and its terms, do not apply to those
	sections when you distribute them as separate works. But when you
	distribute the same sections as part of a whole which is a work based
	on the Program, the distribution of the whole must be on the terms of
	this License, whose permissions for other licensees extend to the
	entire whole, and thus to each and every part regardless of who wrote it.
	Thus, it is not the intent of this section to claim rights or contest
	your rights to work written entirely by you; rather, the intent is to
	exercise the right to control the distribution of derivative or
	collective works based on the Program.
	In addition, mere aggregation of another work not based on the Program
	with the Program (or with a work based on the Program) on a volume of
	a storage or distribution medium does not bring the other work under
	the scope of this License.
	3. You may copy and distribute the Program (or a work based on it,
	under Section 2) in object code or executable form under the terms of
	Sections 1 and 2 above provided that you also do one of the following:
	a) Accompany it with the complete corresponding machine-readable
	source code, which must be distributed under the terms of Sections
	1 and 2 above on a medium customarily used for software interchange; or,

Component	License Information
	b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.) The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code. 4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License.

Component	License Information
	However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
	5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.
	6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.
	7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

Component	License Information
	If any portion of this section is held invalid or unenforceable under
	any particular circumstance, the balance of the section is intended to
	apply and the section as a whole is intended to apply in other
	circumstances.
	It is not the purpose of this section to induce you to infringe any
	patents or other property right claims or to contest validity of any
	such claims; this section has the sole purpose of protecting the
	integrity of the free software distribution system, which is
	implemented by public license practices. Many people have made
	generous contributions to the wide range of software distributed
	through that system in reliance on consistent application of that
	system; it is up to the author/donor to decide if he or she is willing
	to distribute software through any other system and a licensee cannot
	impose that choice.
	This section is intended to make thoroughly clear what is believed to
	be a consequence of the rest of this License.
	8. If the distribution and/or use of the Program is restricted in
	certain countries either by patents or by copyrighted interfaces, the
	original copyright holder who places the Program under this License
	may add an explicit geographical distribution limitation excluding
	those countries, so that distribution is permitted only in or among
	countries not thus excluded. In such case, this License incorporates
	the limitation as if written in the body of this License.
	9. The Free Software Foundation may publish revised and/or new versions
	of the General Public License from time to time. Such new versions will
	be similar in spirit to the present version, but may differ in detail to
	address new problems or concerns.
	Each version is given a distinguishing version number. If the Program
	specifies a version number of this License which applies to it and

Component	License Information
	"any
	later version", you have the option of following the terms and conditions
	either of that version or of any later version published by the Free
	Software Foundation. If the Program does not specify a version number of
	this License, you may choose any version ever published by the Free Software
	Foundation.
	10. If you wish to incorporate parts of the Program into other free
	programs whose distribution conditions are different, write to the author
	to ask for permission. For software which is copyrighted by the Free
	Software Foundation, write to the Free Software Foundation; we sometimes
	make exceptions for this. Our decision will be guided by the two goals
	of preserving the free status of all derivatives of our free software and
	of promoting the sharing and reuse of software generally.
	NO WARRANTY
	11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
	FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN
	OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES
	PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED
	OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
	MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS
	TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE
	PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,
	REPAIR OR CORRECTION.
	12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING

Component	License Information
	WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
	REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
	INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING
	OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED
	TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY
	YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER
	PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
	POSSIBILITY OF SUCH DAMAGES.
	END OF TERMS AND CONDITIONS
	How to Apply These Terms to Your New Programs
	If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.
	To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.
	<one line to give the program's name and a brief idea of what it does.> Copyright (C) 19yy <name of author>
	This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

Component	License Information
	This program is distributed in the hope that it will be useful,
	but WITHOUT ANY WARRANTY; without even the implied warranty of
	MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
	GNU General Public License for more details.
	You should have received a copy of the GNU General Public License
	along with this program; if not, write to the Free Software
	Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA
	Also add information on how to contact you by electronic and paper mail.
	If the program is interactive, make it output a short notice like this
	when it starts in an interactive mode:
	Gnomovision version 69, Copyright (C) 19yy name of author
	Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
	This is free software, and you are welcome to redistribute it
	under certain conditions; type `show c' for details.
	The hypothetical commands `show w' and `show c' should show the appropriate
	parts of the General Public License. Of course, the commands you use may
	be called something other than `show w' and `show c'; they could even be
	mouse-clicks or menu items--whatever suits your program.
	You should also get your employer (if you work as a programmer) or your
	school, if any, to sign a "copyright disclaimer" for the program, if
	necessary. Here is a sample; alter the names:
	Yoyodyne, Inc., hereby disclaims all copyright interest in the program

	`Gnomovision' (which makes passes at compilers) written by James Hacker. <signature of Ty Coon>, 1 April 1989 Ty Coon, President of Vice This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License. --

	MICROSOFT SOFTWARE LICENSE TERMS
	
	MICROSOFT .NET LIBRARY
	
	These license terms are an agreement between you and Microsoft Corporation (or based on where you live, one of its affiliates). They apply to the software named above. The terms also apply to any Microsoft services or updates for the software, except to the extent those have different terms.
	
	IF YOU COMPLY WITH THESE LICENSE TERMS, YOU HAVE THE RIGHTS BELOW.
	
	1. INSTALLATION AND USE RIGHTS.
	
	You may install and use any number of copies of the software to develop and test your applications.
	
	2. THIRD PARTY COMPONENTS. The software may include third party components with separate legal notices or governed by other agreements, as may be described in the ThirdPartyNotices file(s) accompanying the software.
	
	3. ADDITIONAL LICENSING REQUIREMENTS AND/OR USE RIGHTS.
	
	a. DISTRIBUTABLE CODE. The software is comprised of Distributable Code. "Distributable Code" is code that you are permitted to distribute in applications you develop if you comply with the terms below.
	
	    i. Right to Use and Distribute.
	
	    · You may copy and distribute the object code form of the software.
	
	    · Third Party Distribution. You may permit distributors of your applications to copy and distribute the Distributable Code as part of those applications.
	
	    ii. Distribution Requirements. For any Distributable Code you

Component	License Information
	distribute, you must
	· use the Distributable Code in your applications and not as a standalone distribution;
	· require distributors and external end users to agree to terms that protect it at least as much as this agreement; and
	· indemnify, defend, and hold harmless Microsoft from any claims, including attorneys' fees, related to the distribution or use of your applications, except to the extent that any claim is based solely on the unmodified Distributable Code.
	iii. Distribution Restrictions. You may not
	· use Microsoft's trademarks in your applications' names or in a way that suggests your applications come from or are endorsed by Microsoft; or
	· modify or distribute the source code of any Distributable Code so that any part of it becomes subject to an Excluded License. An "Excluded License" is one that requires, as a condition of use, modification or distribution of code, that (i) it be disclosed or distributed in source code form; or (ii) others have the right to modify it.
	4. DATA.
	a. Data Collection. The software may collect information about you and your use of the software, and send that to Microsoft. Microsoft may use this information to provide services and improve our products and services. You may opt-out of many of these scenarios, but not all, as described in the software documentation. There are also some features in the software that may enable you and Microsoft to collect data from users of your applications. If you use these features, you must comply with applicable law, including providing appropriate notices to users of your applications together with Microsoft's privacy statement. Our privacy statement is located at https://go.microsoft.com/fwlink/?LinkID=824704. You can learn more about data collection and its use from the software documentation and our privacy statement. Your use of the software operates as your consent to these practices.
	b. Processing of Personal Data. To the extent Microsoft is a processor or subprocessor of personal data in connection with the software, Microsoft makes the commitments in the European Union General Data Protection Regulation Terms of the Online Services Terms to all customers effective May 25, 2018, at https://docs.microsoft.com/en-us/legal/gdpr.
	5. SCOPE OF LICENSE. The software is licensed, not sold. This agreement only gives you some rights to use the software. Microsoft reserves all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement. In doing so, you must comply with any technical limitations in the software that only allow you to use it in certain ways. You may not
	· work around any technical limitations in the software;
	· reverse engineer, decompile or disassemble the software, or otherwise attempt to derive the source code for the software, except and to the extent required by third party licensing terms governing use of certain open source components that may be

included in the software;

·   remove, minimize, block or modify any notices of Microsoft or its suppliers in the software;

·   use the software in any way that is against the law; or

·   share, publish, rent or lease the software, provide the software as a stand-alone offering for others to use, or transfer the software or this agreement to any third party.

6.   **EXPORT RESTRICTIONS.** You must comply with all domestic and international export laws and regulations that apply to the software, which include restrictions on destinations, end users, and end use. For further information on export restrictions, visit www.microsoft.com/exporting.

7.   **SUPPORT SERVICES.** Because this software is "as is," we may not provide support services for it.

8.   **ENTIRE AGREEMENT.** This agreement, and the terms for supplements, updates, Internet-based services and support services that you use, are the entire agreement for the software and support services.

9.   **APPLICABLE LAW.** If you acquired the software in the United States, Washington law applies to interpretation of and claims for breach of this agreement, and the laws of the state where you live apply to all other claims. If you acquired the software in any other country, its laws apply.

10. **CONSUMER RIGHTS; REGIONAL VARIATIONS.** This agreement describes certain legal rights. You may have other rights, including consumer rights, under the laws of your state or country. Separate and apart from your relationship with Microsoft, you may also have rights with respect to the party from which you acquired the software. This agreement does not change those other rights if the laws of your state or country do not permit it to do so. For example, if you acquired the software in one of the below regions, or mandatory country law applies, then the following provisions apply to you:

a)   **Australia.** You have statutory guarantees under the Australian Consumer Law and nothing in this agreement is intended to affect those rights.

b)   **Canada.** If you acquired this software in Canada, you may stop receiving updates by turning off the automatic update feature, disconnecting your device from the Internet (if and when you re-connect to the Internet, however, the software will resume checking for and installing updates), or uninstalling the software. The product documentation, if any, may also specify how to turn off updates for your specific device or software.

c)   **Germany and Austria.**

    (i)   **Warranty.** The software will perform substantially as described in any Microsoft materials that accompany it. However, Microsoft gives no contractual guarantee in relation to the software.

    (ii)   **Limitation of Liability.** In case of intentional conduct, gross negligence, claims based on the Product Liability Act, as well as in case of death or personal or physical injury, Microsoft is liable according to the statutory law.

Component	License Information
	Subject to the foregoing clause (ii), Microsoft will only be liable for slight negligence if Microsoft is in breach of such material contractual obligations, the fulfillment of which facilitate the due performance of this agreement, the breach of which would endanger the purpose of this agreement and the compliance with which a party may constantly trust in (so-called "cardinal obligations"). In other cases of slight negligence, Microsoft will not be liable for slight negligence

11. DISCLAIMER OF WARRANTY. THE SOFTWARE IS LICENSED "AS-IS." YOU BEAR THE RISK OF USING IT. MICROSOFT GIVES NO EXPRESS WARRANTIES, GUARANTEES OR CONDITIONS. TO THE EXTENT PERMITTED UNDER YOUR LOCAL LAWS, MICROSOFT EXCLUDES THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

12. LIMITATION ON AND EXCLUSION OF REMEDIES AND DAMAGES. YOU CAN RECOVER FROM MICROSOFT AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO U.S. $5.00. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES.

This limitation applies to (a) anything related to the software, services, content (including code) on third party Internet sites, or third party applications; and (b) claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to the extent permitted by applicable law.

It also applies even if Microsoft knew or should have known about the possibility of the damages. The above limitation or exclusion may not apply to you because your state or country may not allow the exclusion or limitation of incidental, consequential or other damages. |
| [Microsoft Entity Framework 6.1.3](#) | **MICROSOFT SOFTWARE SUPPLEMENTAL LICENSE TERMS**

ENTITY FRAMEWORK 5.0 FOR MICROSOFT WINDOWS OPERATING SYSTEM

Microsoft Corporation (or based on where you live, one of its affiliates) licenses this supplement to you. If you are licensed to use Microsoft Windows Operating System software (the "software"), you may use this supplement. You may not use it if you do not have a license for the software. You may use this supplement with each validly licensed copy of the software.

The following license terms describe additional use terms for this supplement. These terms and the license terms for the software apply to your use of the supplement. If there is a conflict, these supplemental license terms apply.

By using this supplement, you accept these terms. If you do not accept them, do not use this supplement.

If you comply with these license terms, you have the rights below.

1. DISTRIBUTABLE CODE. The supplement is comprised of Distributable Code. "Distributable Code" is code that you are permitted to distribute in programs you develop if you comply with the terms below.

a. Right to Use and Distribute. |

Component	License Information
	You may copy and distribute the object code form of the supplement. *Third Party Distribution.* You may permit distributors of your programs to copy and distribute the Distributable Code as part of those programs. **b. Distribution Requirements. For any Distributable Code you distribute, you must** add significant primary functionality to it in your programs; for any Distributable Code having a filename extension of .lib, distribute only the results of running such Distributable Code through a linker with your program; distribute Distributable Code included in a setup program only as part of that setup program without modification; require distributors and external end users to agree to terms that protect it at least as much as this agreement; display your valid copyright notice on your programs; and indemnify, defend, and hold harmless Microsoft from any claims, including attorneys' fees, related to the distribution or use of your programs. **c. Distribution Restrictions. You may not** alter any copyright, trademark or patent notice in the Distributable Code; use Microsoft's trademarks in your programs' names or in a way that suggests your programs come from or are endorsed by Microsoft; distribute Distributable Code to run on a platform other than the Windows platform; include Distributable Code in malicious, deceptive or unlawful programs; or modify or distribute the source code of any Distributable Code so that any part of it becomes subject to an Excluded License. An Excluded License is one that requires, as a condition of use, modification or distribution, that * the code be disclosed or distributed in source code form; or * others have the right to modify it. **2. SUPPORT SERVICES FOR SUPPLEMENT.** Microsoft provides support services for this software as described at https://www.support.microsoft.com/common/international.aspx.

MsiExt	Eclipse Public License (EPL) ---------------------------- THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT. 1. DEFINITIONS

Component	License Information
	"Contribution" means:
	a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and
	b) in the case of each subsequent Contributor:
	i) changes to the Program, and
	ii) additions to the Program;
	where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.
	"Contributor" means any person or entity that distributes the Program.
	"Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.
	"Program" means the Contributions distributed in accordance with this Agreement.
	"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.
	2. GRANT OF RIGHTS
	a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.
	b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent

Component	License Information
	license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.
	c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.
	d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.
	3. REQUIREMENTS
	A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:
	a) it complies with the terms and conditions of this Agreement; and
	b) its license agreement:
	i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;
	ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;
	iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

Component	License Information
	iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.
	When the Program is made available in source code form:
	a) it must be made available under this Agreement; and
	b) a copy of this Agreement must be included with each copy of the Program.
	Contributors may not remove or alter any copyright notices contained within the Program.
	Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.
	4. COMMERCIAL DISTRIBUTION
	Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.
	For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial

	Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages. 5. NO WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations. 6. DISCLAIMER OF LIABILITY EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. GENERAL If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

Component	License Information
	All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive. Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.
NetApp Manageability SDK 5.4	END USER LICENSE AGREEMENT FOR NETAPP, INC. SOFTWARE NETAPP MANAGEABILITY SDK LICENSE AGREEMENT This NetApp Manageability Software Development Kit ("SDK") License Agreement ("License") is a legal agreement between You either as an individual or as an authorized representative of a business entity (hereafter referred to as "You" and/or "Your"), and NetApp, Inc. ("NetApp"). If you are accessing the SDK electronically, indicate your acceptance of these terms by selecting the "Accept" button at the end of this License. By accepting the terms of the License, You agree to be bound by the terms of the License, which include any other applicable licenses provided with the SDK. If You do not agree to all of the terms, select the "Decline" button at the end of this License.

Component	License Information
	1. SOFTWARE DEVELOPMENT KIT LICENSE GRANT. Subject to the terms and conditions set forth herein, NetApp grants You a license to: (i) Internally use the documentation which may include the "Getting Started Guide," FAQs, API documentation, and trouble-shooting guidelines (collectively, the "SDK Documentation") solely for the purpose of researching, designing, developing and testing a software application product (the "Licensee Application") for use with NetApp products; (ii) Use, reproduce and distribute the Language Libraries in object code form (for C/C++, Java, C#, VB.NET and PowerShell only) and source code form (for Perl, Python and Ruby only) as incorporated into the Licensee Application; provided, however, that You (A) reproduce and include the copyright notice that appears in the Language Libraries as provided by NetApp, and (B) distribute the Licensee Application incorporating the Language Libraries pursuant to terms no less restrictive than those set forth herein. You shall not modify the Language Libraries; and (iii) Use, reproduce, modify and create derivatives of the Sample Code which may include utilities (the "Sample Derivatives") and reproduce and distribute the Sample Derivatives in object code form as incorporated in the Licensee Application; provided, however, that You (A) reproduce and include the copyright notice that appears in the Sample Code as provided by NetApp, and (B) distribute the Licensee Application incorporating the Sample Derivatives pursuant to terms no less restrictive than those set forth herein. NetApp will not provide technical support, phone support, or updates to You for the Sample Code licensed under this License. If NetApp, at its sole option, supplies updates to You, the updates will be considered part of the Sample Code, and subject to the terms of this License. You shall not combine the Language Libraries or the Sample Derivatives into a Licensee Application such that the Language Libraries or Sample Derivatives would be licensed under a license that requires the Language Libraries or Sample Derivatives to be (a) disclosed or distributed in source code form, (b) licensed for the purpose of making derivative works, or (c) redistributable at no charge. **2. SNAPDIFF API LICENSE GRANT.** The SDK may also include the NetApp SnapDiff APIs and accompanying API documentation (collectively, "SnapDiff"), for which the following license terms apply. NetApp grants You a limited, terminable, revocable, nonexclusive license, with no right of sublicense, to implement SnapDiff, in Your Licensee Application, as long as such implementation does not have the functionality to transfer data from a NetApp storage device to a non-NetApp disk or solid state storage device.

	3. THIRD PARTY SOFTWARE. Notwithstanding other statements in this License, the SDK may include third party software including free, copyleft and open source software components (collectively referred to as "Third Party Software") that are distributed in compliance with the particular licensing terms and conditions attributable to the Third Party Software. NetApp provides the Third Party Software to you "AS IS" without any warranties or indemnities of any kind. Copyright notices and licensing terms and conditions applicable to the Third Party Software are available for review with the SDK Documentation at http://community.netapp.com/t5/Software-Development-Kit-SDK-and-API-Discussions/bd-p/sdk-and-api-discussions, and are included in a NOTICES file included within the downloaded files. **4. RESTRICTIONS.** NetApp shall retain all right, title and interest in and to the SDK and SDK Documentation, and all copies thereof (hereafter referred to collectively as the "NetApp Software"). Licensee shall not, nor shall Licensee allow any third party to: (a) decompile, disassemble, decrypt, extract, or otherwise reverse engineer or attempt to reconstruct, or discover any source code or underlying ideas, algorithms, or file formats of, or used in, the Language Libraries by any means whatever; or (b) remove or conceal any product identification, copyright or other notices contained in or on the Language Libraries. NetApp, and any relevant third parties, reserve the right to revise, including bug fixes and/or patches, upgrade or otherwise change or modify the NetApp Software ("Upgrade") at anytime. The NetApp Software is protected by copyrights, one or more U.S. patents issued or pending, and other applicable laws. Licensee agrees to take all adequate steps to protect the NetApp Software from unauthorized disclosure or use. **5. CONFIDENTIALITY.** You acknowledge that the terms of this License, the APIs, the API documentation, and the source code are proprietary and confidential information of NetApp (hereafter "Confidential Information"). You shall not make the Confidential Information available in any form to any person other than to Your employees or consultants with a need to know and who are under an obligation of confidentiality not to disclose such Confidential Information. You shall use the same degree of care to protect the confidentiality of such Confidential Information as You use to protect Your own confidential information but in no event shall such degree of care be less than a reasonable degree of care. Confidential Information shall not include any information that (a) You can prove was received by You without confidentiality obligations of any kind prior to the time of disclosure, provided You did not receive the information from any third party in violation of that party's confidentiality obligations, (b) is in the public domain at the time of disclosure, (c) enters the public domain after the time of disclosure through no fault of Yours, or (d) is independently developed by You. **6. NetApp disclaims any express or implied warranty of fitness for such uses and shall not be liable for any costs, liabilities or damages resulting from the use of the NetApp Software in such an environment. Licensee agrees that it will not use or license the NetApp Software for such purposes. **9. U.S. GOVERNMENT AND EXPORT REGULATIONS; COMPLIANCE WITH LAWS.** If Licensee is acquiring the NetApp Software and accompanying documentation on behalf of the U.S. Government, special provisions apply. Each party must at all times, comply with all applicable laws, ordinances, statutes, rules, and regulations. **10. LICENSEE INDEMNITY.** Licensee shall defend, indemnify and hold NetApp and its directors, employees subsidiaries, affiliates, licensors, successors and assigns harmless from and against all claims, damages, fines, assessments, losses, costs and expenses, including attorneys' fees, arising from any third party claims or government or regulatory actions asserted against NetApp and its employees, subsidiaries, affiliates, successors and assigns (or which are otherwise tendered to NetApp by an indemnitee), that are based in whole or in part on any of the following: (a) Licensee's use or misuse of the NetApp Software in violation of this License; (b) use of the NetApp Software in combination with any other software not provided hereunder; (c) Licensee's breach of this License; or (d) a claim based upon an actual or alleged infringement of an intellectual property right of a third party arising from or related to the Licensee Application. **11. 	===
	
	This Exception applies to open source applications built with ServiceStack and ServiceStack extensions ("The Software"), and to open source Derivative Works of the Software, that use the Software under the terms of GNU Affero General Public License, version 3 ("AGPLv3"). The Exception extends AGPLv3 by providing additional grants that allows developers of FOSS applications to include ServiceStack with their FOSS applications in combination with other software licensed under the licenses from the "Open Source License List" below, provided that:
	
	You obey the AGPLv3 terms for the Software and the Derivative Work, except for the separate parts of the Derivative Work ("Additions") which constitute independent work and are not dervied from the Software.
	
	  - All Additions are distributed subject to one of the licenses listed below.
	
	  - Your software distribution provides complete source code for the Additions.
	
	  - The Derivative Work and its Additions are intended for use in end-user applications and do not constitute software intended for use by software developers, such as software libraries, components, and development kits.
	
	  - If you violate any of the terms in this Exception, you lose all rights granted to you by the Exception and revert to the terms of AGPLv3.

	· the code be disclosed or distributed in source code form; or
	· others have the right to modify it.
	3. SCOPE OF LICENSE. The software is licensed, not sold. This agreement only gives you some rights to use the software. Microsoft reserves all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement.
